

WHY MUST BUSINESS AND MULTI-FAMILY COMPLEXES RECYCLE?

It's the law. For the past several years California has surpassed its goal of recycling 50% of waste materials. Californians have done such a good job that the new goal is to achieve a 75% recycling rate by 2020. To accomplish this task, business and multi-family complexes are mandated to divert organics and other recyclable materials from the waste stream.

SMALL BUSINESS HAZARDOUS WASTE DISPOSAL PROGRAM

Local business that produce small amounts of hazardous material may qualify for San Joaquin County's Conditionally Exempt Small Quantity Generator (CESQG) Program. This program offers qualifying business with a low cost way to comply with regulations and ensure that hazardous materials are disposed of properly.

RECYCLING REQUIREMENTS

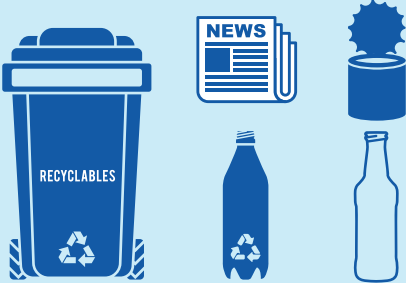

for Business & Multi-Family Complexes

A Guide for Business and Multi-Family
Complexes to Comply with California
Recycling Regulations

CALIFORNIA LAW: BUSINESSES & MULTI-FAMILY COMPLEXES MUST RECYCLE!

State of California Mandates (AB1826 & AB341) Require Business and Multi-Family Complexes (5 or more units) to recycle organics and other recyclable materials. **RECYCLING AND COMPLIANCE IS AS EASY AS 1-2-3.**

Container/Bin	Type of Materials:	Who Must Comply?	How to Comply:																								
<h2>1. ORGANICS</h2> 	<table border="1"> <thead> <tr> <th>Required Recycling:</th> <th>Multi Family Complex</th> <th>Business</th> </tr> </thead> <tbody> <tr> <td>Green Waste</td> <td>X</td> <td>X</td> </tr> <tr> <td>Wood Waste (non-hazardous)</td> <td>X</td> <td>X</td> </tr> <tr> <td>Landscape & Pruning Waste</td> <td>X</td> <td>X</td> </tr> <tr> <td>Food Waste</td> <td></td> <td>X</td> </tr> <tr> <td>Food Soiled Papers</td> <td></td> <td>X</td> </tr> </tbody> </table>	Required Recycling:	Multi Family Complex	Business	Green Waste	X	X	Wood Waste (non-hazardous)	X	X	Landscape & Pruning Waste	X	X	Food Waste		X	Food Soiled Papers		X	<p>Business and Multi-family (5 or more units) complexes must start recycling organic waste by the following dates:</p> <p>generators of:</p> <table border="1"> <tbody> <tr> <td>April 1, 2016</td> <td>8 or more cubic yards of organic waste per week</td> </tr> <tr> <td>January 1, 2017</td> <td>4 or more cubic yards of organic waste per week</td> </tr> <tr> <td>January 1, 2019</td> <td>4 or more cubic yards of solid waste per week</td> </tr> </tbody> </table>	April 1, 2016	8 or more cubic yards of organic waste per week	January 1, 2017	4 or more cubic yards of organic waste per week	January 1, 2019	4 or more cubic yards of solid waste per week	<ul style="list-style-type: none"> • Subscribe to an organics collection and recycling program with your waste collector (see list of collectors on reverse). • Recycle organic waste onsite.* • Deliver organics to a designated facility for recycling.*
Required Recycling:	Multi Family Complex	Business																									
Green Waste	X	X																									
Wood Waste (non-hazardous)	X	X																									
Landscape & Pruning Waste	X	X																									
Food Waste		X																									
Food Soiled Papers		X																									
April 1, 2016	8 or more cubic yards of organic waste per week																										
January 1, 2017	4 or more cubic yards of organic waste per week																										
January 1, 2019	4 or more cubic yards of solid waste per week																										
<h2>2. RECYCLABLES</h2> 	<p>Recyclable Materials Include:</p> <ul style="list-style-type: none"> • Paper • Plastic • Glass • Metals • Cardboard • Bottles & Cans 	<p>Business and Multi-family Complexes that generate 4 cubic yards or more of waste per week must have a recycling program in place or must subscribe to a recycling service.</p>	<ul style="list-style-type: none"> • Subscribe to recycling services from your waste collector. • Deliver recyclable materials to a verifiable recycler. 																								
<h2>3. WASTE</h2> 	<p>Materials that:</p> <ol style="list-style-type: none"> 1) do not fit into the organics or recyclable categories, above, 2) that are nonhazardous and 3) that are not banned from the landfill may be placed into the waste container. 		<h2>DID YOU KNOW?</h2> <ul style="list-style-type: none"> • By adding recycling services, business and multi-family complexes can save money by decreasing the size of garbage bins and frequency of service. • By recycling, more items are kept out of landfills, extending the life of these facilities. • Recyclable materials that are used in manufacturing are, in most cases, more cost effective than virgin materials.
